State Witnesses Say Conduct of Thaw Erratic

NEW YORK, July 2.—Justice Hendrick and the jury at Harry K. Thaw's sanity trial had heard most of the state's documentary evidence when court reconvened today. Counsel for the state brought their witnesses in the expectation of calling the first of them this afternoon.

Policemen who arrested Thaw immediately after he shot Stanford White were among those waiting to testify.

Satisfied that Evelyn Nesbit Thaw will be here early next week in response to a subpoena calling her as a witness, the state's attorneys had abandoned their preparations to obtain an attachment to compel her presence in court.

After the introduction of further documentary evidence the state called as its first witness James M. Barrett, a policeman assigned to the Tenderloin police station on the night Harry Thaw was taken there after the killing of Stanford White. He gave testimony intended by the state to prove that Thaw, while in his cell, was under a delusion that he heard the voices of little girls screaming.

"Thaw asked me two or three times," said the witness, "Where are those little girls screaming? I told him there were no little girls. Some women had been arrested and one was shouting and carrying on. I told him they were women and he said, 'Oh, no they aren't. They're little girls. I hear them screaming.' He asked me who was beating and abusing them."

Prominent Czechs Are Under Arrest

LONDON, July 2.—The Czech parliamentary leader, Dr. Kramarz, and Dr. Schreiner, head of the Bohemian gymnastic organization, were arrested at Prague on May 22 charged with espionage and maintaining friendly relations with the Italian consul, according to the Times. The only compromising documents found in their possession are said to have been copies of a Czech review, published in Paris.

The Times asserts the two men are imprisoned in Vienna, although false reports of their liberation have been spread in the hope of influencing the Czech population in favor of the war loan.

The refusal of the Czech party to disavow its arrested leaders is reported to have resulted in Archduke Frederick, commander in chief of the Austrian army, addressing to Emperor Francis Joseph a report denouncing all Czechs as traitors. The Times article contains the statement that several Czech regiments have deserted to the Russians and Serbians.

Homeopaths Are Ready to Espouse Prohibition Cause

CHICAGO, July 2.—Homeopathic physicians are ready to espouse the cause of national prohibition, according to Dr. E. Arthur Carr of Lincoln, Neb., who presented the report of the interstate committee to the convention of the American Institute of Homeopathy here today. The report carried laudatory recommendations of the Harrison narcotic law.

"I believe homeopathic physicians are ready now to support national prohibition," said Dr. Carr. "We, as a profession, use little cocaine or other narcotics in our practice, much less than are used by other schools of medicine, but while we may believe in national prohibition and in the principles represented by the Harrison law, this committee does not want to go further in its recommendations or take any political action other than the single recommendation commending this great law."

Dr. J. P. Sutherland of Boston objected to the resolution, stating that the

practice of the homeopathic physicians had not required a regulatory measure like the Harrison law and that he believed there had been much politics behind the law as well as purely ethical motives.

The convention, acting upon Dr. Sutherland's suggestion, voted to adopt the committee's report without the recommendations. Opposition to the selection of Baltimore as the next convention city developed today. It was argued that the method of selection by the trustees precludes the institute from receiving offers from Commercial clubs of various cities. His motion that the trustees consider their selection of Baltimore not final was carried in the form that they hold their decision until December, with the privilege of changing the convention city should they deem it advisable.
